Congressman Scudder, of California, called in connection with correspondence he had received concerning the claim of Mr. [] for a commission in the sale of the West Coast property for the []. The Congressman was most pleasant and stated that he had kept out of any previous fights involving acquisition of this property as he did not and still does not feel it is a matter in which he should become involved. The only question he wished to ask was whether we had made the original contact with [] at the Santa Rosa Chamber of Commerce or in [] real estate office. I informed Mr. Scudder that the contact had been made with Mr. [] at the Chamber of Commerce and not in his real estate office. Mr. Scudder said that he had suggested to [] that he refer the question to Mr. Breed, General Counsel for the California Real Estate Association as the Congressman felt that Mr. Breed was extremely fair and an expert on the law of agency which would permit him to advise [] regarding this matter.
